

Ritu Dubey

Senior Software Engineer

Mumbai • ritu.tech97@gmail.com • [+919262261762](tel:+919262261762)

SKILLS

Languages	HTML5, CSS3, JavaScript (ES6+), Typescript, SCSS
Libraries	React, Redux, Material UI, Styled Components, React Router, React Window, jQuery, Bootstrap, Apache Echarts
Unit testing	Jest & React Testing Library
Tools	Webpack, Vite, Storybook, Npm, Git, Docker, Figma, Jira, Claude, GitHub CoPilot

WORK EXPERIENCE

LearningMate - Mumbai

Dec 2025 - Present

Senior Software Engineer

- Enhanced **accessibility** across **React Micro Frontend** (MFE) applications by auditing UI components and implementing **WCAG compliant React features**, improving usability for all users.
- Hands-on experience embedding **AI (Claude Code + internal plugin, MCP integration with Jira, GitHub and Playwright)** into day-to-day development.
- Delivered accessibility and **localization** enhancements in a **React based video player**, including **Audio Description** (AD) support, language-aware controls, and audio source switching.
- Maintained **reusable React components** and shared design system libraries, ensuring consistency, scalability, and maintainability across applications.
- Remediated security vulnerabilities** and major dependency upgrades across multiple production services and repositories.

Wipro - Pune

Aug 2018 - Dec 2025

Senior Software Engineer

- Experience in building **cross browser compatible, responsive** and **compliant web applications**.
- Experience with **React** and its core principles - with popular React workflows, **Redux** and component libraries (like Material UI, React router, React Intl)
- Improved React application performance for large datasets by **optimizing UI** rendering and API calls, reducing initial load time and decreasing bundle size, resulting in a **40% performance improvement**.
- Worked on building frontend clients using **React** for **Generative AI** based applications, providing data driven insights on candidate, fitment, skill assessment and interview question generation.
- Involved in **revamping** the entire PHP based legacy projects into **React + Redux** reimagined.
- Gathered exposure in **Unit testing** including tools like **Jest** and **React testing library**.

PROJECTS

Invoices App - React, jsPDF

Generate clean, professional invoices and download it in PDF or image format.

File Sharing Web App - JavaScript, Node, Socket.io

Share files in real-time with anyone without storing them on the server.

EDUCATION

MTECH - Computing Systems & Infrastructure

Jun 2019 - Dec 2022

BITS

BSc. in Information Technology

Jun 2015 - Jun 2018

Jamshedpur Women's College
